COACHING & CONSULTING

SERVICES & PRICING

The cost of services for each client is determined based on their individual needs and requests. A consultation is necessary to establish full hourly rates. Sessions are currently only available for self-pay. **Pricing is calculated using base hourly rates and may be adjusted based on specific client requirements.**

CONSULTATION (2 HOUR MINIMUM)

We meet in home or virtually (home preferable) to consider you and your child's needs. We will discuss support services, identify target skills/deficits, and create goals that guide the path of sessions. A brief observation and bonding session with your child will occur to ensure that our caregiver is the best fit for your circumstances and child's circumstances.

COST: \$50/HOUR IN PERSON, \$40/HOUR VIRTUAL

SKILL COACHING AND BEHAVIOR SUPPORT

Our provider works to provide regularly scheduled practical living assistance and skill development sessions for children to improve their quality of life through increased independence in their home and community. Skills practiced include, but are not limited to: person hygiene practices, cooking simple meals, increased functional communication for wants/needs, chores and cleanliness, participation in sports/extracurricular activities, and social skills. Behavior support will be provided through the identification of target behaviors, management of incidents as they occur, and modeling of best practices to reduce these behaviors. Coaching and materials will be presented to the parents to aid in implementing and continuing practices outside of session.

COST: \$40/HOUR

RESPIRE CARE

Caring for individuals with autism requires 24-hour dedication and can be emotionally and physically draining for caregivers. Respite care offers primary caregivers a break to focus on their own well-being, recharge, and refocus on their caregiving responsibilities. This could include going to your own doctor appointments, spending time with your spouse or friends, resting, or doing something just for yourself. Taking care of yourself is essential for providing the best care for your loved one with autism and in preventing caregiver burnout. Our caretaker provides temporary relief services for primary caregivers of individuals with autism and other special needs. Includes care when the primary caregivers are at the home or away.

COST: \$40/HOUR (9AM-6PM), \$50/HOUR (+6PM, WEEKENDS)

CREATION OF MATERIALS

Your provider will create custom materials to support your child's growth. This can include visual labels, behavior support materials, functional communication supports, and learning games personalized in alignment with goals.

COST: \$20/HOUR (2 HOUR MINIMUM)
